**IRON ARMOUR ACADEMY PRESENTS
UNSTOPPABLE SCHOOL TOUR**

GOOD TO GREAT TO UNSTOPPABLE

WITH IAA CEO, CHRIS AHO

Every young person has a seed of greatness inside of them and the purpose of our **UNSTOPPABLE** talks are to help them identify this so that they can grow and make an impact in their world.

Good to Great to Unstoppable is about empowering our young people to become the leaders they have been destined to become by first learning to lead themselves.

We understand the challenges that our young people face today, and we aim to help them build their resilient muscles to stand in the face of adversity, help them to see things from a greater perspective and therefore develop in their personal growth.

We aim to encourage and empower our young people by giving them the tools to make better decisions (reacting vs responding, window/mirror principle), and understanding the consequences of the choices we make which impact not only ourselves but those around us.

We also discuss the importance of understanding that whilst we all come from different backgrounds, upbringings, nationalities, gender we all have a commonality and that is our values. We delve into this to promote a culture of inclusivity, respect, and appreciation for each other's differences. We discuss key areas of building unity which ultimately derive from developing greater self-awareness and empathy.

The core of what we do is to see young people win - at home, school and community - to prepare them for life as they grow to become the leaders for our next generation.

Each young person is destined for greatness, and through our programs and workshops our purpose is to help them identify this so that they can go on and thrive wherever they go!
